

# Standards Based Instruction for Students with Complex Education Needs: Can We? Should We? How?

Instructor: Dr. Gail McGregor, University of Montana

Dates: The course will begin the week of February 16, 2015  
and will end on March 29th

(just before the test administration window opens for the new NCSC Alternate in English/Language Arts and Mathematics)

This six week online class is sponsored by The Office of Public Instruction, and is available to teachers of students who are eligible to take the alternate assessment. You can take the class for OPI Renewable Units (no cost) or for 2 Graduate Credits (\$135.00). The six week course will cover:

- Standards-based instruction for students with disabilities. How did we get here?
- Introduction to National Center and State Collaborative
- Integrating standards-based instruction within existing programs for students with complex educational needs.
- Aligning instruction with grade level standards
- Strategies and resources to teach ELA
- Strategies and resources to teach Math

For more information, contact Gail McGregor at:  
(406) 243-2348 or [gail.mcgregor@mso.umt.edu](mailto:gail.mcgregor@mso.umt.edu)

This course is supported by funding from the Project REAL grant to OPI (#H323A100009) and the Montana Deaf-Blind Project (#H326T130015)
